

# Areas Prospective for Onshore Gas

**Legend**

Towns

Main Roads

Lakes / Water bodies

River / Streams

Natural gas potential - Gippsland and Otway basins

Natural gas potential (limited information) - areas within Murray Basin

Notes:

- Fracking and the exploration and mining of coal seam gas is banned.
- The areas shown as being prospective for natural gas are based on the interpretation of available geological information.
- There may be some other areas that are prospective for natural gas but there is very limited information available.
