

# Hanson Construction Materials Pty Ltd

In September 2021, Earth Resources Regulation inspectors identified multiple alleged non-compliances with the approved work plan at the Axedale Sand and Gravel Quarry operated by Hanson Construction Materials Pty Ltd.

## Alleged breach

Hanson Construction Materials Pty Ltd is alleged to have contravened section 8AB(2)(a) of the *Mineral Resources (Sustainable Development) Act 1990* by carrying out extractive industry under a work authority otherwise than in accordance with approved work plan.

## Summary of undertaking

Activities Hanson Construction Materials Pty Ltd will undertake to:

- Rectify the identified alleged non-compliances within agreed timeframes
- Engage with the appropriate agencies to acquire requisite vegetation offsets
- Make a financial donation of a specified value to a native vegetation program
- Engage with the Victorian extractive industry and share key learnings as a result of the identified non-compliances and enforceable undertaking process

## Reasons for accepting the undertaking

- The nature of the alleged contravention and the actions taken by Hanson Construction Materials Pty Ltd following the identification of the alleged non-compliances are assessed as being appropriate for consideration of an undertaking
- The strategies proposed in the undertaking have been assessed as likely to deliver sustainable improvements at the site, within the environment and in the broader extractives industry and local community
- The undertaking addresses the criteria contained within the "Ministerial guidelines on the use of enforceable undertakings"

## Date accepted

28 September 2023
